LEARN MORE:

HELPFUL HINTS: SUBTERRANEAN TERMITES

- ✓ Repair broken windows and weather stripping around doors and windows
- ✓ Eliminate moisture build-up around the home perimeter
- ✓ Repair loose mortar around the home foundation
- ✓ Address structural water leaks promptly
- ✓ Utilize non-cellulose mulch in plant beds — if using natural mulch, remove it annually instead of placing new mulch over existing mulch
- ✓ If the home is built with a crawlspace, remove all cellulose debris from under the home
- ✓ Clear gutters of debris
- ✓ Have your home inspected annually by a knowledgeable and qualified person
- ✓ In Florida, be sure to maintain a home subterranean termite warranty
- ✓ Contact us to see if your home qualifies for the Sentricon System
